30th IUSTI European Congress 2016

September 15-17 Budapest

Joint Meeting of the 21st Hungarian STI Society 2016

September 14 Budapest

WELCOME

The 30th IUSTI-Europe Conference will be held at September 15-17, 2016 in the Hilton Budapest, Budapest, Hungary. The local organizers include Board members of the Hungarian STI Society which looks back a 20 years past, and the Conference will be kept under the auspices of Regional Director of the WHO Regional Office for Europe and the President of the Hungarian Academy of Sciences.

The main slogan of the Conference: *“Traditions, advances in STI care: harmony of personal and social prevention”*.

This is the guiding principle the International Scientific Committee group the presentations around, while we are not only looking back into the past, and are discussing recent concerns of classical STI diseases, but we will also analyze questions of future problems such as syndromes of newly emerging diseases or threatening new risk groups, or infections with unusual manifestation.

Therefore we are convinced that the Conference will provide an interesting and useful forum not only for venerologists and other STI experts, but other colleagues from related fields such as gynecologists, urologists, andrologists, epidemiologists, and microbiologists. The site of the Conference is the historic castle-district of Budapest, where from the medieval walls you can have a fabulous view over the city rich in monuments, historic buildings and the majestic Duna river ornamented with several great bridges. During your stay you may enjoy the thermal waters of several spas originated from the Middle ages, and visit the colorful Central Food Market. We hope that the scientific and cultural values of the Conference will provide substantial experiences and adventures, and the traditional Hungarian hospitality as well as the famous culinary delicacies will further enrich the time you spend here.

Best regards

Viktória Várkonyi
Congress President
